A69466	Basic module TITAN GATE V3 Relaxation Block	Vente libre	170.00 € incl. tax

The best if you already have the USB link. The Basic Module package contains a TITAN with the BASIC firmware edition. If you decide to have more functions, there is always an option to update the firmware from BASIC to ADVANCED (complete).

TITAN V3 ™ is a management / control system of your AEG for Gearbox V3 that will completely transform your replica into an efficient and adjustable system. Adjust your AEG and check the stats using the USB-Link and GATE Control Station app for PC and Android devices. TITAN V3 allows you to adjust the sensitivity of the trigger with military precision.

Innovative trigger sensors give you even 250 possible settings. Benefit from a tactical advantage thanks to the extremely fast trigger response and many other useful features. Give your AEG a new life!

The kit includes:

- TITAN V3 module with BASIC firmware (universal cabling)
- Installation kit
- Getting Started and Installation Guide

Very important :

To run and configure the TITAN, it is necessary to have the USB link

Why is the GATE TITAN so special?

- November 2023 Update: New firmware including Expert mode
- It has simplified configuration via the GATE Control Station app for Android, Windows and macOS
- It is the first and only mosfet allowing firmware updates via the internet, which allows improvements
- It has a relaxation sensor which even offers you 250 possible adjustment parameters
- It has innovative optical sensors instead of mechanical contactors which can present faults
- It gives you access to statistics and rankings (in case of advanced firmware)

- It has a reactivity/trigger response identical to a real weapon
- It is compatible with DSG, SSG and 19 tooth pistons
- It is compatible with most Gearbox V3 (including CNC) on the market without any modification
- It is compatible with the most powerful AEG replicas.

GATE Control Station™

TITAN and GATE Control Station give you full control of your AEG. The GCS offers you the option to:

- Control your replica from your smartphone with Android and PC, with Windows or macOS
- Just adjust the TITAN settings
- Simplicity for updates
- View statistics and participate in rankings*
- Perform diagnostics and send reports

* only in case of advanced firmware
