- **Compatible charger:** ref. 18555

An airsoft shotgun designed for recreational use

The **ASG Ashbore SF12 Spring 6mm** captures the spirit of tactical shotguns in an accessible and easy-to-use version. From the first use, you'll appreciate its simple mechanics and intuitive design, perfectly suited for beginners or recreational games with friends.

Simple and reliable spring operation

Thanks to its spring-powered mechanism, this replica requires neither a battery nor gas. Each shot is fired after manually cocking the pump, offering autonomous and exceptionally reliable operation. In practice, this type of mechanism is appealing due to its ease of maintenance and immediate availability in the field.

Lightweight polymer construction

The **FPV (Full Polymer Version)** design keeps the weight down while ensuring good resistance to everyday use. The replica remains comfortable to carry and quick to shoulder, even during long gaming sessions.

Adjustable hop-up to adjust the trajectory

The **adjustable hop-up** system optimizes stability and BB range depending on the BB weight used. This adjustment offers greater versatility and improves shooting comfort, especially during medium-range engagements.

An ideal replica for discovering airsoft

With its simple mechanics, tactical style, and self-contained operation, the SF12 is an excellent entry point into **airsoft** . Its unique serial number also adds a more realistic and refined touch.

Additional features

- **Range:** SportLine
- **Type:** Airsoft shotgun
- **Use:** recreational airsoft
- **Ammunition type:** 6mm plastic BBs
- **Color:** black
- **Charger reference:** 18555

FAQ

Does the ASG Ashbore SF12 work without gas or battery?

Yes, this replica works solely thanks to a spring system, without an external power supply.

Is the hop-up adjustable?

Yes, the adjustable hop-up allows you to adapt the trajectory of the BBs according to your shooting preferences and the weight used.

Is this model suitable for starting out in airsoft?

Yes, its ease of use, robustness and autonomous operation make it a very good choice for beginners.
