Airsoft gas designed for demanding and perfectly controlled GBB configurations

Nuprol 2.ZERO Silicone Free Green Gas Airsoft Gas is designed for players and technicians seeking clean, stable, and fully controlled operation of their GBB replicas. Its silicone-free formula ensures cleaner internal operation and provides long-lasting protection for sensitive components.

- **Silicone-free formula** for a clean internal environment
- Regular and controlled operation over repeated cycles
- Suitable for precision-tuned GBB replicas
- Compatible with tight-fitting barrels and optimized hop-up units
- Manual lubrication management for customized maintenance

Nuprol 2.ZERO Silicone Free Green Gas is designed for users who want to eliminate all traces of silicone from their GBB replica. This technical choice limits fouling, protects seals, and prevents the gradual contamination of hop-up rubbers, while ensuring a smooth and consistent cycle.

Box contents

- 1 Nuprol 2.ZERO Silicone Free gas cylinder

Technical specifications

- **Type:** Airsoft gas without silicone
- **Capacity:** 650 ml
- **Net weight:** 300 g
- **Pressure:** 145 PSI / 12 kg
- **Compatibility:** GBB and GBBR replicas
- **Formulation:** Clean propellant with stabilizing additives
- **Brand:** Nuprol
- **EAN:** 5056444737267

FAQ

Is this gas suitable for all GBB replicas?

Yes, it is perfectly suited for GBB pistols and rifles, especially precision-tuned setups.

Why choose a silicone-free gas?

The absence of silicone limits internal residues and preserves the quality of the hop-up seal in the long term.

Should the replica be lubricated separately?

Yes, using a suitable silicone spray allows for precise control of the lubrication of moving parts.

Is this gas suitable for heavy-duty use?

Its stable formulation ensures consistent performance even during long gaming sessions.
