Solid interface for easily mounting a red dot sight on your KJ Works GBB.

The **KJ Works Plaque Red Dot KP13 KP17 KP18** allows the installation of a red dot sight on compatible GBB airsoft pistols, with a robust metal construction and reliable integration.

- **Type:** Red dot (RDS) mounting plate
- **Compatibility:** KJ Works KP-13, KP-17, KP-18
- **Function:** Red dot sight mount
- **Material:** aluminum / metal
- **Use:** Airsoft GBB only

Optimize your aim with a red dot sight

On the field, switching to a red dot sight immediately changes the way you play. With the **KJ Works Plaque Red Dot KP13 KP17 KP18** , it's easy to equip your GBB pistol with an RDS for faster, more instinctive target acquisition. It's a logical evolution for performance-oriented players.

Dedicated assembly and clean integration

Designed specifically for the KP-13, KP-17, and KP-18 platforms, this plate ensures a clean and stable integration. Once installed, it allows you to mount a compatible red dot sight while maintaining a consistent line of sight. The mount is designed to remain discreet and functional.

Reliable metal construction

Its aluminum/metal construction ensures good resistance to wear and tear. It easily withstands the stresses associated with GBB operation (vibrations, repeated cycles), making it a durable accessory for regular players.

A performance-oriented accessory

This type of mount is particularly appreciated in dynamic games, where speed of aiming makes all the difference. In practice, it improves responsiveness, especially during transitions between

targets or in CQB environments.

Additional information

- **Compatibility:** only KJ Works KP series
- **Mounting type:** RDS viewfinder interface
- **Use:** Airsoft upgrade

FAQ

Is this plate compatible with all airsoft guns?

No, it is designed specifically for the KJ Works KP-13, KP-17 and KP-18 models. It is not suitable for other platforms.

What type of sight can be mounted?

It is designed to accommodate a red dot sight (RDS) compatible with this type of mount. It is recommended to check the dimensions and mounting holes of the sight before installation.

Does the installation require any modifications?

Depending on the gun's configuration, some adaptation or technical assembly may be required. It is advisable to entrust the installation to an experienced user.
