A right-handed holster with retention at the trigger guard and 360° adjustable orientation.

The **Nuprol Perfect Fit EU Series holster** is designed for EU series airsoft pistols equipped with a light. Made of PA6 nylon, it combines a durable structure with a light weight of 135g. Retention is achieved at the trigger guard and is released via a "Quick Draw" lever, securing the replica during movement while facilitating easy drawing. This black version is configured for right-handed carry and comes with a belt clip adapted for hip carry. Its 40-position interface allows the holster to rotate 360° for precise angle adjustment. This system offers a customizable configuration for players using a compatible replica and light.

A holster for EU Series replicas with a light

The **Nuprol Perfect Fit EU Series holster** accommodates an EU series airsoft pistol replica equipped with a **#300 light** . Its right-handed configuration and belt flap allow for hip carry adapted

to this specific combination.

Retention at the trigger guard and quick draw

The replica is held in place by a **retention system at the trigger guard** . The "Quick Draw" lever controls the unlocking mechanism to facilitate drawing while keeping the replica in the holster during movement.

360° adjustable wearing angle

The 40-position interface allows for 360° rotation of the **Nuprol airsoft holster** . This enables players to adjust the carrying angle to their preferred setup. Its PA6 nylon construction keeps the overall weight to a mere 135g.

FAQ - Nuprol Perfect Fit EU Series Holster
