Enjoy all the benefits of GATE TITAN

TITAN Advance (mosfet drop-in) will change your AEG into an advanced weapon system. Gain the tactical advantage with the extremely fast response of the trigger and the ability to adapt your Airsoft rifle to each mission using 20 functions. Give a new life to your reply!

TITAN allows you to set:

- The sensitivity of relaxation
- Pre-cocking mode
- Fire selector mode
- Burst mode
- Rate of fire
- Low battery warning
- Battery protection
- Delays between shots (sniper delay)

The kit includes:

- TITAN Drop-in module (front or rear wiring)
- Bluetooth module
- USB-Link to GATE Control Station App
- Advance Software
- Mounting kit
- USB cable
- Portable operating instructions

TITAN has up to 8 sensors!

- ***1 rack sensor***
- ***2 selector sensors***
- ***5 trigger sensors***

Why is the GATE TITAN so special?

- November 2023 Update: New firmware including Expert mode
- It has simplified configuration via the GATE Control Station app for Android, Windows and macOS
- It is the first and only mosfet allowing firmware updates via the internet, which allows improvements
- It has a relaxation sensor which even offers you 250 possible adjustment parameters
- It has innovative optical sensors instead of mechanical contactors which can present faults
- It gives you access to statistics and rankings (in case of advanced firmware)
- It has a reactivity/trigger response identical to a real weapon
- It is compatible with DSG, SSG and 19 tooth pistons
- It is compatible with most Gearbox V2 (including CNC) on the market without any modification
- It is compatible with the most powerful AEG replicas.

GATE Control Station™

TITAN and GATE Control Station give you full control of your AEG. The GCS offers you the option to:

- Control your replica from your smartphone with Android and PC, with Windows or macOS
- Just adjust the TITAN settings
- Simplicity for updates
- View statistics and participate in rankings*
- Perform diagnostics and send reports

* only in case of advanced firmware
