## Enjoy all the benefits of GATE TITAN TITAN Advance (mosfet drop-in)

### TITAN allows you to set:

- The sensitivity of relaxation
- Pre-cocking mode
- Fire selector mode
- Burst mode
- Rate of fire
- Low battery warning
- Battery protection
- Delays between shots (sniper delay)

### The kit includes:

- TITAN Drop-in module (front or rear wiring)
- Bluetooth module
- USB-Link to GATE Control Station App
- Advance Software
- Mounting kit
- USB cable
- Portable operating instructions

### TITAN has up to 8 sensors!

- *1 rack sensor*
- *2 selector sensors*
- *5 trigger sensors*

***Why is the GATE TITAN so special?***

- November 2023 Update: New firmware including Expert mode
- It has simplified configuration via the GATE Control Station app for Android, Windows and macOS
- It is the first and only mosfet allowing firmware updates via the internet, which allows improvements
- It has a relaxation sensor which even offers you 250 possible adjustment parameters
- It has innovative optical sensors instead of mechanical contactors which can present faults
- It gives you access to statistics and rankings (in case of advanced firmware)
- It has a reactivity/trigger response identical to a real weapon
- It is compatible with DSG, SSG and 19 tooth pistons
- It is compatible with most Gearbox V2 (including CNC) on the market without any modification
- It is compatible with the most powerful AEG replicas.

***GATE Control Station™***

TITAN and GATE Control Station give you full control of your AEG. The GCS offers you the option to:

- Control your replica from your smartphone with Android and PC, with Windows or macOS
- Just adjust the TITAN settings
- Simplicity for updates
- View statistics and participate in rankings\*
- Perform diagnostics and send reports

\* only in case of advanced firmware
