enjoy all the benefits of GATE TITAN

TITAN Advance (mosfet drop-in) will change your AEG into an advanced weapon system. Gain the tactical advantage with the extremely fast response of the trigger and the ability to adapt your Airsoft rifle to each mission using 20 functions. Give a new life to your reply!

TITAN allows you to set:

- The sensitivity of relaxation
- Pre-cocking mode
- Fire selector mode
- Burst mode
- Rate of fire
- Low battery warning
- Battery protection
- Delays between shots (sniper delay)

The kit includes:

- TITAN Drop-in module (front or rear wiring)
- USB-Link to GATE Control Station App
- Advance Software
- Bluetooth module
- Mounting kit
- USB cable
- Portable operating instructions

TITAN has up to 8 sensors!

- ***1 rack sensor***
- ***2 selector sensors***
- ***5 relaxation sensors***

Why is GATE TITAN so special?

- It has a simplified configuration via the GATE Control Station app for Android, Windows and macOS
- This is the first and only mosfet for firmware updates via the internet, allowing improvements
- It has a trigger sensor that gives you even 250 parameters of possible settings
- It has innovative optical sensors instead of mechanical contactors that may have defects
- It gives you access to statistics and rankings (in case of advanced firmware)
- It has a reactivity / trigger response identical to a real weapon
- It is compatible with DSG, SSG and 19-tooth pistons
- It is compatible with most Gearbox V2 (including cnc) on the market without any modification
- It is compatible with the most powerful AEG replicas.

GATE Control Station ™

TITAN and GATE Control Station give you total control of your AEG. The GCS offers you the option of:

- Control your replica from your smartphone with Android and PC, with Windows or macOS
- Just adjust the TITAN settings
- Simplicity for updates
- See statistics and participate in rankings *
- Perform diagnostics and send reports

* only in case of advanced firmware
