- 190% Increased spring power (estimate based on average power output)

- **Type:** Spring for AEG electric airsoft replica
- **Variants:** M90, M100, M110, M120 and M130

Choosing your AEG spring

These Lancer Tactical springs allow you to select a variant for the mechanics of an electric airsoft gun. Compatibility with the gun's configuration must be verified before choosing the spring.

After installation, the speed and energy of the replica must be checked with the BBs used, particularly with regard to the applicable limits on the playing field.

Variant	Announced speed
M90	290 to 310 FPS
M100	320 to 345 FPS
M110	345 to 370 FPS
M120	385 to 410 FPS
M130	415 to 440 FPS
