### Gamo air rifle 10 shots with flat magazine and open sights!

The Gamo Roadster incorporates the new 10-shot system with automatic reloading by tilting the barrel. The new 10x magazine is lighter and more discreet: when flat it leaves the open sights unobstructed!

In addition, the Roadster 10x is a concentrate of the latest Gamo technologies:

- 10x magazine: rapid fire without reloading
- SWA™: shooter-adaptable hardness butt plate
- RRR™: recoil-absorbing scope mount
- CAT™: bossed trigger with adjustable starting strokes
- Whisper Fusion™: Quieter dual-compartment suppressor.
- IGT™: Gas cylinder which replaces the spring for super regular shots.

Rifle with 11mm rail for optical mounting, delivered with 1 10x magazine.

The incredible Gamo Roadster IGT 10X GEN2 has arrived, with for the first time a moderator of its latest generation Whisper Fusion, the inert gas power plant of Gamo, a new ergonomic synthetic stock for thumbs and new technology 10x GEN 2 patent pending. This new multi-shot system includes our advanced horizontal magazine, making it lighter, 25% more compact and more discreet with the inclusion of open sights, allowing you to shoot without a range.

Your choice: with this new recharging system, the user can forget to use a telescopic sight, shooting with open sights if desired. In addition, it allows the user to define standard frames, which makes it compatible with other Gamo glasses.

Improved compactness and lightness: the 10X GEN2 Multishot system was developed considering that a rifle must not only be powerful, but also handy, comfortable and ergonomic, so this new magazine has been optimized to offer more in less space.

Aesthetics and design: The new generation of Gamo rifles has been designed according to the latest market trends, always maintaining an excellent compromise between user-friendliness, ergonomics and design.
