- Fire mode: semi-automatic
- Construction: ABS and metal
- Pads: ABS
- Propulsion mode: CO2
- Energy: 3.0J
- Cylinder head: Fixed

This compressed air pistol is inspired by the legendary Colt 1911. The polymer frame is very light and the internal parts are made of metal for greater durability. You can attach any tactical accessory to the 22mm Weaver rail located under the barrel. The smoothbore is designed to fire .177 caliber (4.5mm) steel balls. The magazine has an 18-round capacity. The Borner Power WIN 304 is powered by a single 12g CO2 cartridge, which must be placed inside the stock. The manual safety is located near the hammer.
