- Fire mode: semi-automatic
- Construction: ABS
- Pads: ABS
- Propulsion mode: CO2
- Energy: 3.0J
- Cylinder head: Fixed

This air pistol is inspired by the legendary Colt 1911. It has a smooth barrel designed to fire .177 caliber (4.5mm) steel balls. The gun is very light thanks to its polymer frame. The internal parts are made of metal for greater durability.
The Borner CLT 125 is powered by a single 12g CO2 cartridge, which should get you around 60 shots. The black polymer handles are checkered for safer handling. The CO2 cartridge is stored inside the handle. The magazine has a capacity of 20 rounds.
The manual safety is located near the hammer. The maximum effective range is 20 m with a speed of 127 m/s. The trigger works in double action mode.
