Faithful to the original thanks to the close cooperation with ASG, the company has made Scorpio EVO 3 A1 Carbine in Denmark. Design and electronics are the signatures of this neat weapon replica.

The faithful design of the CZ scorpio Evo 3 A1 has been particularly neat to the point of using the original molds for the hand guard and my butt. It has picatinny rails to accessorize the replica. The on-board electronics manages the number of remaining balls and stops shooting once the magazine is empty.
It works either piecemeal, burst (burst 3coups) or full auto. With its ambidextrous shooting selector, foldable and adjustable 3-point stock, and a weight of 2.45 kg, it will suit all fans of the airsoft.
