Program your AEG via your iOS or Android smartphone

Leviathan - V2 is processor controlled mosfet with wireless communication. It adds new shooting modes, controls RoF, pre-cocking, active braking, low battery indication, statistics... Everything is controlled via application in the smart phone (iOS and Android). Device is fully integrated inside the gearbox version 2 instead of the original trigger contacts. Comes with completely made wires to stock with mini fuse and deanT connector - no soldering needed.

- Choose the model you need, with or without CNC trigger.
- Front wiring (to hand guard)
