Defense pistol in complete pack with CO2, balls and weapon, delivered in case

The HDP 50 is a .50 caliber semi-automatic pistol with an output of 7.5 or 11 joules with an imposing appearance.

The power is provided by a CO2 cartridge located in the handle ready to be used at any time thanks to an "Emergency" percussion system of the CO2 cartridge. Realistic and imposing, it will make any attacker think twice. The texture of the stock gives you a secure hold in stressful situations, and the safety prevents accidental firing if the weapon is dropped.

The magazine is integrated into the weapon and can hold up to six rounds of rubber, marking powder or pepper. The HDP 50 is equipped with Picatinny rails to accommodate a tactical flashlight and a red dot or spray extension.
