Non-lethal weapon of defense with rubber or tear balls!

Pack consisting of an HDR 50 revolver + 1 case + 5 CO2 capsules + 1 sachet of 100 rubber balls.

The HDR 50 is a .50 caliber revolver with a notable power of 7.5 joules with an imposing appearance.

The easy-to-load rotary magazine can hold up to six .50 caliber rounds. Power is provided by a CO2 cartridge located in the handle. Thus, the Home Defense Revolver 50 is ready to be used at any time thanks to a percussion system of the CO2 cartridge at the last moment. The all-metal design, wide shape and remarkable size are meant to scare off any aggressor. The stock's textured surfaces give you a secure grip even in stressful situations, and the trigger safety prevents accidental shots if you drop the revolver.

It fires both rubber balls, marking powder balls and pepper balls in .50 caliber. The HDR 50 revolver is equipped with Picatinny rails to accommodate a tactical flashlight and a red dot.

Technical characteristics :

- Caliber: .50
- Capacity: 6 shots
- Length: 225 mm
- Weight: 675 g
