- **Capacity:** 24 marbles
- **Trigger:** Double/single action
- **Material:** Polymer
- **Rail:** Integrated Picatinny
- **Weight:** 316 g
- **Total length:** 185 mm
- **Energy:** < 0.5 joule

An accessible and realistic replica for beginners

Designed for beginners and recreational shooting enthusiasts alike, and manufactured under license by KWC (Taiwan), this spring-powered replica features the iconic design of the **SIG SAUER SP2022**, the standard-issue pistol of the **French National Gendarmerie**. Its manual (spring) operation makes it simple and reliable to use, requiring no gas or battery.

Picatinny rail for accessories

The integrated rail located under the barrel allows for the addition of a **light** or **laser** to vary the game scenarios or improve accuracy in low light conditions.

Fixed 3-point contrast aiming

Fixed sights with white dots offer **quick and intuitive target alignment** . This type of sight is ideal for dynamic, short-range shooting.

Realistic DA/SA Relaxation

The **double and single action trigger** system adds to the realism of the replica, faithfully simulating the behavior of the original model in real fire.

Secondary specifications

- **Hop-up:** Non-adjustable
- **Recommended amount of beads:** 0.12 g
- **Color:** Black
- **Handle and frame:** Textured polymer
- **Barrel threading:** None

FAQ

Is this pistol suitable for airsoft beginners?

Yes, thanks to its simple (spring) operation and its lightness, this replica is ideal for starting airsoft safely.

Is it compatible with accessories such as lamps or lasers?

Yes, the Picatinny rail under the barrel allows for easy addition of a standard 20mm light or laser.

What BB should I use with this replica?

6mm BBs weighing 0.12g are recommended to optimize range and accuracy on this low-power spring model.
