An impressive accuracy for an unbeatable price

The PCP MX6 air rifle is an air rifle incorporating the characteristics of the MX5 with a striking design with its Turkish walnut stock optimizes its grip and balance of the weapon, adding a 60% larger air tank .

2 pressure gauges are present on the rifle in order to precisely follow the air pressure present in the 550 cc tank (200 bars maximum) and the pressure contained in the regulator. The latter ensures shots at constant pressure, which has the effect of greatly improving the regularity of shots, and therefore precision.
