### An impressive accuracy for an unbeatable price

The PCP MX7 air rifle is a bullpup type air rifle with a synthetic high density polymer stock.

2 pressure gauges are present on the rifle in order to precisely follow the air pressure present in the 320 cc tank (200 bars maximum) and the pressure contained in the regulator. The latter ensures shots at constant pressure, which has the effect of greatly improving the regularity of shots, and therefore precision.

- Caliber 5.5mm / Cal .22 air
- DIN filling pin compatible with PCP A73411 pumps
- 1/8 NTP DIN adapter included
- Rifle delivered in a hard case in the colors of the brand
- 2 12-shot magazines included
