A formidable precision, a tactical look, a huge tank of air for an unbeatable price.

The PCP MX-8 Evoc Rifle is a bullpup-type air rifle featuring a high-density polymer synthetic stock, offering an adjustable cheek piece and lower Picatinny rails on the front and rear of the weapon for the installation of single-foot or two-foot. S

2 pressure gauges are present on the rifle in order to precisely follow the air pressure present in the 500 cc tank (200 bars maximum) and the pressure contained in the regulator. The latter ensures shots at constant pressure, which has the effect of greatly improving the regularity of shots, and therefore precision.

- DIN filling pin compatible with PCP A73411 pumps
