A formidable precision combined with an impressive energy.

The PCP MX6 air rifle is a strikingly designed air rifle with its Turkish walnut stock optimizes its grip and balance of the weapon, adding a particularly large air tank.

2 pressure gauges are present on the rifle in order to precisely follow the air pressure present in the 550 cc tank (200 bars maximum) and the pressure contained in the regulator. The latter ensures shots at constant pressure, which has the effect of greatly improving the regularity of shots, and therefore accuracy.

- DIN filling pin compatible with PCP A73411 pumps
- 1/8 NTP DIN adapter included
- Rifle delivered in a hard case in the colors of the brand
- 2 12-shot magazines included
