To fire 40mm gas airsoft grenades!

Inspired by the famous Soviet rocket launcher, this **RPG-7 airsoft** combines a faithful design with a robust **full metal** and **textured faux wood** construction, offering an authentic visual rendering without compromising on solidity. Designed to accommodate **40 mm airsoft grenades** (not included), it is ideal for boosting your gaming scenarios with a touch of tactical power.

- **Materials** : Full metal & faux wood
- **Length** : 950 mm (1350 mm with dummy warhead)
- **Weight** : Approx. 4.45 kg
- **Compatibility** : 40mm airsoft grenades (not included)
- **Capacity** : Depending on grenade used
- **Firing system** : Manual via internal grenade (propulsion not included)
- **Viewfinders** : Adjustable and folding
- **Use** : Decorative, cosplay, milsim, scripted immersion

The **RPG-7 airsoft gun** is a decorative and functional replica, designed for those looking for a **strong visual impact** in games. Its **full metal** design guarantees excellent durability, while the **realistic faux wood** elements add a neat finish to the overall look.

With its **folding sights**, **impressive size** and **realistic weight**, this replica is designed for passionate gamers, milsim enthusiasts or demanding cosplayers. Whether in game or on display, it imposes its presence on the field as well as in a showcase.

Easy to handle despite its dimensions, it allows the use of **40 mm airsoft grenades** with gas, CO2 or spring depending on the compatible model.

Ideal for role-playing, reenactments or scenarios inspired by modern and historical conflicts.
