

### The world's first custom P226 airsoft range

The VP26X is a customised GBB sidearm brought to you by VORSK Airsoft.

Fitted with a frame mounted Breacher which extends both the pistol & barrel length as well as bringing the 20 mm Mil-Spec rail flush with the muzzle – the VP26X's side profile is quite unlike any other GBB pistol on the market. The slide has experienced some weight reduction with the addition of three forward twin-vent ports as well as deep engravings on the rear slide grips – a common feature on VORSK GBB Pistols. The reduced weight slide enhances the recoil effect – but this feeling is further enhanced with the fitting of the Breacher. Whereas most GBB Pistols rely entirely on the locking pin to stop the forward momentum of the slide, the VP26X Breacher provides a second contact point that really amplifies this recoil sensation.

VORSK touches are also found on the bespoke half-solid, half-wireframe hammer as well as the high-stippled polymer grip. The 21R magazine comes fitted with a polymer bumper plate to protect the magazines metal body. The VP26X also features a De-Cocking lever so you can safely return the hammer to its safe position without discharge.

Sight options include either fibreoptic iron sights, or Dot-Sight options – Black, Grey or Tan. The package also includes a 12 mm CW / 14 mm CCW thread adapter for users to fit their own barrel attachments. Side-loading CO2 Magazines are available as a spare item.

The chamfered, dual-action trigger is exceptionally ergonomic and able to both cock this replicas hammer & fire a round in one, long trigger pull.

- CNC monobloc metal slide
- Polymer grip
- Metal frame
- Metal outer barrel

- Fixed fiber optics rear sight (high)
- Fiber optic front sight
- Inner barrel: ø6.03x93.7mm
- Reinforced nozzle
- 21 rounds gaz magazine
- Weight: 900 grams
- Fire mode: Semi-auto
- Blowback
- Recommended gas: Nuprol 2.0 (A69912) / Nuprol 3.0 (A69917)
- Contents of the box: 1 GBB, 1 gaz magazine, 1 spare parts kits (gaskets, nozzle), instructions, 1 Vorsk patch.

Gas and Co2 compatible
