Brushless motor at the best price / quality ratio

Operating voltage - 7.2v - 11.4v (2 to 3 cell lithium polymer battery)

Brushless DC motors have no brushes to get worn out, they represent a huge leap forward in technology. Brushless output significantly higher efficiency and performance, and have a lower susceptibility to mechanical wear than their brushed counterparts.

Specification:

- Cast aluminium casing
- Total custom in-runner design with maximum power and torque
- High temeprature resistant quality copper windings (by machine)
- SH quality magnets
- Internal ESC with over amp draw and low voltage cut off to protect the motor and battery.
- High quality D-cut removable pinion gear for easy switch outs

RPM Information:

35,000 RPM at 11.1v
