Round polycarbonate tonfa supplied with its cordura tonfa holder.

This **56cm polycarbonate tonfa** is a functional and lightweight self-defense baton, ideal for training or security missions. It comes with a black Cordura **tonfa holder** .

- **Length:** 56 cm
- **Structure:** round tonfa with a flattened end
- **Material:** High-strength polycarbonate
- **Handle:** perpendicular grooved with stop
- **Wrist strap:** retaining cord included
- **Included case:** black cordura tonfa holder

A simple and reliable tonfa for training or action

Designed for professionals or practitioners of self-defense techniques, this tonfa is made of **rigid polycarbonate** . It combines lightness and strength, while allowing for good maneuverability thanks to its **round shape with a flat end** . Its 56 cm length makes it a well-balanced tool for training or rapid intervention.

Secure perpendicular handle

The tonfa features a **secondary handle** positioned at a 90° angle, with a **grooved surface** and a stop at the end. This design offers excellent control of the baton, reduces the risk of slippage, and facilitates technical movements. A **wrist strap** is included for added security.

- **Grip:** non-slip grooved handle
- **Safety:** Nylon wrist strap included

Cordura tonfa case included

The **included tonfa holder** is made of durable **black Cordura** . It easily attaches to a belt or duty belt, keeping the equipment readily accessible. Lightweight and compact, it's ideal for use in the field or during training trips.

- **Case material:** woven cordura
- **Attachment:** standard belt loop

FAQ

Is the tonfa available for purchase without a license?

No, the tonfa is classified in category D. It is available for sale only to adults (+18 years), with authorized use for sport, training or professional activities.

Is this tonfa suitable for intensive use?

Yes, the polycarbonate used is designed to withstand repeated impacts, ideal for regular training or dynamic exercises.

Is it compatible with other tonfa holders?

Yes, its standard shape allows use with the majority of universal tonfa holders or those specific to service equipment.
