The **Photo Trap PIE1066** allows you to take photos and/or videos using 2 modes:

- **PIR detection mode corresponds** to motion detection
- **TimeLapse mode for** automatically taking photos at programmed intervals

Both discreet and ergonomic, the **PIE1066 Photo Trap** is very efficient.

Features of the PIE1066 trail camera

- PIR sensor (motion detector):
  - Wide detection angle: 60°
  - Detection distance: up to approx. 15 m

    - Adjustable sensitivity: high / medium / low
- Infrared flash:
    - Range: up to approx. 15 m
    - 24 invisible LEDs (wavelength: 940 nm)
    - Automatic activation according to brightness
- Image sensor: 2.0 Mega Pixels color CMOS
- Capture modes:
    - Photo: 1 to 3 photos per release
    - Video: programmable duration (from 10 seconds to 5 minutes)
    - Photo + Video: the device takes a photo first and then shoots a video
- Photo resolution: 3 MP, 5 MP, 8 MP, 12 MP or 16 MP
- Photo file format: JPEG
- Video resolution:
    - VGA (640x480)
    - HD 720P (1280x720)
    - FULL HD 1080P (1920x1080)
- Video file format: AVI
- **PIR detection mode** : the device takes photos or videos when the PIR sensor (motion detector) detects activity in the area it covers
- **Time Lapse mode** : photos or videos are taken automatically at regular time intervals during a user-defined time range
- Marking on photos: time, date, temperature, moon phase, device identification number (if the user has programmed one)
- External memory: SD/SDHC card up to 32 GB (not included)
- Ability to assign an identification number to the device: lets you know where and by which device a photo was taken

Reliable and efficient

- 2 years warranty
- Designed to be weather and dust resistant (IP66)
- Trigger speed: 0.4 seconds

Ergonomics of the PIE1066 camera trap

- Dimensions: 150 x 112 x 66mm
- Weight: 265 g (without batteries)
- Power supply: 4 AA alkaline batteries or 4 AA Ni-MH rechargeable batteries (not included) - **You can purchase these batteries at any time on this website.**
- Monochrome LCD screen for making adjustments (1.3'')
- Possibility of adding an external power supply (not supplied):
    - AC input 100V - 240V | 50-60HZ
    - DC 6V output | 2A
- USB port for downloading photo/video files (USB cable provided)

This pack contains, in addition to the photographic trap, 4 batteries for power supply and a 32 Gb SD memory card for storing your shots.
