Ideal for recreational shooting.

The Borner 22 is a replica of the Sig Sauer SP2022 semi-automatic pistol, which has been adopted by many armed forces around the world as an endowment weapon, particularly in France, where since 2002 it has equipped the national police, the gendarmerie, customs and prison administration. This replica works by means of a CO2 cartridge (12 g) inserted in the stock, just behind the magazine.

It is chambered in 4.5 mm caliber and fires steel balls. The magazine capacity is 20 rounds and the replica is not blow-back. The safety catch is located on the trigger tail.
