A69183	Walkie Talkie Midland G9 Pro White Camo	Vente libre	6.8	35	12	114	Rechargeable	137.00 € incl. tax

The ultimate radio used in any outdoor environment.

With a 30% larger screen, 30% better sound, a more powerful antenna and dual PTT allowing you immediate selection of high and low power, your communication becomes easier and more fun. G9 Pro introduces the 8 new frequencies of the PMR 446 band, freely usable in Europe, for communications free of overlaps and congestion from other users. Among the optional accessories, you can choose the Li-Ion battery pack to make it even lighter and more durable.

This pack contains:

- G9 PRO Walkie-Talkie x1
- Charging base x1
- Wall power supply x1
- Belt clip x1
- Rechargeable AA batteries 1800mAh x4

Starting with the numbers, the G9 Pro introduces 8 new PMR446 channels, reaching 101 channels in total, with an expanded frequency band – from 446.00625 to 446.19375 MHz – and CTCSS and DCS channels. Channels are visible on the wide LCD screen. Right next to it, the double PTT button to adjust high and low power. It is the radio offering the best performance for you who practice softair and outdoor activities: certified IPX4 waterproof, it is rain resistant. In addition, you could communicate hands-free whatever happens: you just need to activate it by voice and you communicate with your friends and colleagues with bilateral conversation (thanks to the Talk-Back function, you interact live, without having to need to wait for the transmission to complete). And when the communication ends, you hear the Roger Beep signal. The Call key allows you to select 5 tones as you wish and if you hold it down for a long time, you lock the keyboard. The button used to activate the emergency call is naturally there and it is red. Ready to communicate with the best out there?

Features:

- Band: PMR446/LPD (dual-band)
- Channels: PMR446 = 16 / LPD = 69
- CTCSS and DCS: 38 CTCSS / 104 DCS
- Vox: 3 sensitivity levels
- Autonomy: 23h
- Screen: Multi-function backlit LCD
- Operating temperature: From -20°C to 55°C
- Weight: 114g (without batteries)
- Dimensions (WxHxD): 68x120x35mm
- Accessory plug type: 2 pin
- Protection rating: IPX4

For use abroad, put your Midland G9 in Export mode ([Midland G9: Increased range / increased range \(youtube.com\)](#)) in order to add approximately 20% range. Please note, this modification is not legal for use on French territory.
