Tactical Flashlight with Integrated Laser.

- LED: XF-S2 + laser
 - Brightness: 360 Lumen
 - Lighting mode: steady, strobe, laser, steady/strobe+laser
 - Operating time: Fixed: 2h, Stroboscopic@10Hz: 3h, fixed + laser: 1h, laser: 25h
 - Laser: green
 - Battery: 1 built-in battery 122025/500mAh (rechargeable)
 - Charging time: 3 hours
 - Beam distance: High?130m
 - Lux: high ?4400Lux
 - Charging method: Magnetic charging, with USB cable and magnetic connector
 - Material: Aluminum alloy
 - Water resistance: IP66
 - Shock resistance: 1m
 - Rail clip width: 2-2.2cm
-
- Dimensions: 59*31*45.4 mm
 - Net weight: 89g (with battery)

Continuous Light Power:

- The LED chip of this tactical flashlight offers a maximum brightness of 360 lumens in continuous mode, ensuring reliable and constant illumination.

Adjustable and Precise Laser:

- The integrated laser, 532nm and <5mW, is Class IIIA. The elevation and orientation of the laser are adjustable using the Allen key included in the package, providing maximum precision.

Resistant and Waterproof Construction:

- Made from aircraft-grade anodized aluminum, this device is shock and vibration resistant and waterproof to IP66, ensuring optimal durability even in harsh conditions.

Rechargeable Battery and Autonomy:

- The built-in 500mAh battery allows up to 2 hours of continuous operation at 650 lumens. Charging is convenient via the magnetic charging port, with the cable included in the package.

Charge Indicator:

- The charging indicator, located near the magnetic charging port, displays red while charging and green once the battery is fully charged, providing clear visibility of the battery status.

Intuitive use:

- The laser switch turns the laser on/off. A single press turns regular mode on/off, while a two-second press activates strobe mode. In strobe mode, a two-second long press disables strobe mode completely, ensuring precise and personalized use.
