Complete pack for home defense.

This fully equipped pack, intended for home defense and personal protection, is composed of the following elements:

- 1 Charlie .50 16 Joule defense pistol (AD816)
- 5 CO^2 sparclettes 12g (A51905)
- 10 .50 caliber rubber defense balls (BBR86)
- 1 can of Armistol oil (EN3140)
- 1 ABS case with foam interior (MAL420)

Charlie .50 caliber pistol (AD816):

The Charlie 1.50 pistol is a high-power self-defense weapon (16 joules) with an imposing appearance. With its metal slide and barrel, the weapon is heavy and comfortable in the hand like a real pistol.

Its semi-automatic operation and its impactable CO2 tank for immediate use make it a defense weapon that is always ready and modular thanks to its 2 5-round magazines.

Its 2 chargers allow you to modulate your response in the event of attack:

- 1 charger with pure rubber balls, softer and therefore less painful.
- 1 charger with rubber balls loaded with metal particles, heavier and harder, for maximum effect on the attacker.
- The removable magazine can be changed in an instant by pulling down the ambidextrous magazine catch located under the barrel.

Power is provided by a 12g CO2 cartridge located in the handle (delivered without sparclettes).

- The new cartridge can be hit suddenly at the bottom of the stock in an emergency.
- Rubber projectiles for defense (do not use Steel projectiles)

- Load indicator on the rear of the slide showing that the cartridge is impacted and the weapon is ready to fire.

Delivered with 2 5-round magazines, barrel cleaning swab and instructions in French, English, Italian, Spanish and German.

CO^2 Sparclettes 12g (A51905):

- CO2 refills 12g BO Manufacture for airsoft, pellet shooting, defense.
- Sold in cases of 5 12 g CO2 sparclettes.

Rubber defense balls (BBR86):

High quality balls for maximum efficiency manufactured by Concorde Defender and compatible with Walther T4E 50 caliber defense weapons.

The solid rubber balls deform slightly on impact to transfer maximum kinetic energy to the target. The neutralizing effect will be all the more important as the energy (in joules) of the weapon is high.

- Caliber: .50.
- Projectile: solid rubber ball
- Weight of a ball: 1.05 g.

3 in 1 oil can (EN3140):

Anticorrosive, antirust, lubricant.

- For hunting and shooting weapons.
- Packaging: 1 box of 25 cruets.
- Public price per unit
- Capacity: 120 ml.

ABS case (MAL420):

- Dimensions (LxWxH) in cm: 35 x 25 x 7
- Color: Black
