The 4UANTUM LOCK threaded lock leaves an adhesive material on your screw so that it does not come loose over time. Click pen packaging dispenses a perfectly sized drop for most threads.

The blue label pen has medium fixing strength and can be disassembled using ordinary hand tools. It is suitable for parts that need to be frequently disassembled for adjustment or maintenance. Curing time: 10 minutes / Actual curing time: 1.5 hours / Full curing time: 24 hours

Removable thread lock

Vibrations are the worst enemy of bindings. Every airsoft gun, including the springs, vibrates when in operation. Therefore, it is very important to use threadlockers on fasteners that hold critical components. Once hardened, 4UANTUM LOCK Wire Glue leaves a grippy material on your mounting screw so it won't come loose over time. Click pen packaging easily dispenses a perfectly sized drop for most airsoft gun attachments.

Medium strength screw glue.

Vibrations are the biggest enemy of screws. Every air gun, including manual air guns, will definitely produce vibrations during operation. Therefore, it is crucial to use screw fixing agent on key parts and expensive accessories! 4UANTUM LOCK The screw fixing agent is cured. It will form a high strength substance on the screw threads.

It can effectively prevent screws from accidentally loosening during use. The convenient squeeze back pen packaging will extract just the right amount with just one click.
