A format designed for CQB

The **KJ Works KP23** is clearly designed for confined environments. Compact and lightweight, it's easy to handle and quick to draw. In practice, this feeling of freedom of movement is much

appreciated - a real advantage in CQB where every second counts.

Realistic and responsive blowback

The metal slide powered by the **blowback** system delivers a crisp and immersive firing cycle. The recoil is noticeable but doesn't compromise control, allowing for smooth rapid-fire action while maintaining a satisfying feel.

Adjustable precision

The **adjustable hop-up** allows you to adapt the trajectory of the BBs according to their weight. The result: consistent range and stable accuracy, even on a compact platform.

Modern and customizable ergonomics

Its polymer frame ensures a good grip while keeping the weight down. The integrated **Picatinny** rail allows for the addition of accessories such as a light or laser. The three available colors (black, OD Green, tan) offer easy integration into various tactical setups.

A replica designed for mobility

- **Use:** CQB, dynamic airsoft
