Compact, lightweight and responsive for dynamic CQB.

The **KJ Works KP23** is a compact gas blowback airsoft pistol designed for responsiveness and maneuverability. Its metal slide and lightweight design make it an ideal partner in close-quarters combat.

- **Caliber:** 6 mm BB
- **Energy:** 0.8 joules
- **Velocity:** ~90 m/s (290 fps)
- **Magazine capacity:** 20 rounds
- **Mode:** Semi-automatic
- **Operation:** Gas blowback
- **Hop-up:** Adjustable
- **Length:** 189 mm
- **Weight:** 650 g
- **Construction:** Metal cylinder head / polymer frame
- **Rail:** Integrated Picatinny
- **Colors:** Black, OD Green, Tan

A compact format designed for the field

The **KJ Works KP23** stands out for its compactness and lightness. In CQB, where every movement counts, it's unobtrusive yet instantly ready for action. It's exactly the kind of replica you

can draw quickly and easily.

Sharp blowback and realistic sensations

The **blowback** system animates the metal slide with each shot, resulting in a fast and dynamic cycle. The feel is crisp without being excessive - a good balance between realism and control.

Adjustable precision and efficiency

Thanks to its **adjustable hop-up** , it's possible to adapt the trajectory of the BBs according to their weight. This allows for consistent range and accuracy, even on a compact replica.

Modern ergonomics and modularity

Its polymer frame ensures a good grip and reduces overall weight. The integrated **Picatinny** rail allows you to add a light or laser, ideal for indoor or low-light games. The three available colors (black, OD, tan) suit all styles.

A replica designed for mobility

- **Use:** CQB, dynamic airsoft
- **Transport:** Compatible with standard Glock type holsters
- **Structure:** Good resistance with a metal cylinder head
- **Design:** Modern two-tone look (depending on version)

FAQ

Is this model suitable for CQB?

Yes, its compact size, lightness and responsiveness make it an excellent choice for close combat.

Is the hop-up adjustable?

Yes, it allows you to adjust the trajectory of the balls to improve accuracy and range.

What accessories can be added?

The Picatinny rail allows you to install a compatible lamp or laser according to your needs.
