- **Barrel length:** 130 mm
- **Total length:** 210 mm
- **Weight:** 875 g
- **Construction:** Full metal / ABS
- **Rail:** Integrated Picatinny
- **Barrel:** Threaded for silencer
- **Function:** Dual action
- **Colors:** Black, OD Green, Tan

A strikingly realistic Beretta replica

Inspired by the famous service pistol, the **KJ Works KJM9A1** immediately impresses with its **full metal** finish and realistic weight. In hand, the balance is natural and the feeling of solidity is palpable - a true delight for fans of faithful replicas.

Dynamic blowback and immersion

The **blowback** system replicates the recoil of the bolt with each shot. In practical terms, this adds an extra layer of immersion, with a crisp and satisfying firing cycle. It's that little "kick" that makes all the difference on the field.

Threaded barrel and modularity

Equipped with a **threaded barrel** , this model allows for the addition of a silencer or tracer. The integrated **Picatinny** rail also offers the possibility of mounting a light or laser - ideal for customizing your setup.

Adjustable precision and versatility

Thanks to its **adjustable hop-up** , the trajectory of the BBs can be adjusted according to their weight. The result: improved range and optimized accuracy. Its 0.8 joule power makes it perfectly suited to most playing fields.

Equipment and usage

- **Included accessories:** Speedloader, Allen key
- **Aiming:** Fixed organs 3 points
- **Charger included:** 1 gas charger
- **Use:** Airsoft for recreation and training

FAQ

Is this model compatible with a silencer?

Yes, the threaded barrel allows for the addition of a compatible silencer or tracer.

What is the difference compared to a non-blowback model?

Blowback simulates the recoil of the bolt, offering more realism, but consumes slightly more gas than a non-blowback model.

What colours are available?

This model is offered in black, OD Green and Tan to suit different styles and equipment.
