A replica designed for competition

Developed to replicate the behavior of a match-grade firearm, the **Shadow 2 Orange** incorporates numerous technical optimizations from the original IPSC model: **a fixed stainless steel outer barrel** , realistic **barrel bushing** , **stainless steel spring plug** , and **double-action trigger** . All this for increased stability and accuracy.

Premium finishes and competitive ergonomics

The signature features of this special edition are all present: anodized orange machined grips, an enlarged magazine release, **a serrated slide** for optimal grip, **an adjustable rear sight** , and **a fiber optic front sight** . The full metal slide and match-style trigger complete a package that is as elegant as it is effective.

Controlled power and CO2/Gas compatibility

Thanks to its **dual-source** compatibility, this replica can operate on either CO2 or gas to suit shooter preferences and weather conditions. The blowback is crisp and realistic, and the adjustable hop-up allows for precise trajectory accuracy, even with heavy BBs.
