- New tracer unit design for airsoft shotguns.
- Multicolored flame effect (Bifrost).
- Supports green tracer BBs, red tracer BBs and standard BBs.
- Highly durable aluminum alloy construction.

ACETECH launches Quark R and Quark M, advanced modular unit for configuration. ACETECH, the leading tracer manufacturer in the market, creates a modular tracer unit, Quark R, Quark M, inspired by the Quark-K tracer, featuring a muzzle flash beam, twelve 3535 UV LEDs, a sensor G motion light that triggers a tactical light and an RGB rainbow beam for KSG.
Quark R is designed specifically for the Tokyo Marui M870, M870 Breacher, A&K M870, Golden Eagle M870 shotgun and most airsoft shotgun models. The Quark M supports glow-in-the-dark flash beam when players shoot under minimal light. It is built to be super lightweight and portable, easy to customize on your own airsoft tracer equipment.
Quark R and Quark K tracer offer detailed functions with high quality materials for airsoft tracer users.
