UG1042	Gear Box Lancer Tactical Gen 2	Vente libre	51.00 € incl. tax

Gearbox Gen 2 full metal rear-wired with quick spring system.

The **Lancer Tactical Gen 2 gearbox** is designed for M4/M16 AEG replicas and offers a complete, robust and easy-to-install solution, with **reinforced bushings** and **a quick-change spring** .

- **Type:** Complete electric gearbox
- **Compatibility:** Standard M4/M16 AEG
- **Material: Full metal shell**
- **Wiring:** Rear, with Mini Tamiya connector
- **Bushings: Reinforced standard**
- **Accessories included:** Cylinder, nozzle, spring guide, trigger

A reliable base for your AEG

This **Gen 2 gearbox** from **Lancer Tactical** was designed to easily adapt to most M4 and M16 platforms. Its **all-metal** construction ensures good mechanical resistance, ideal for standard to intermediate configurations.

Integrated quick spring change

Thanks to its **quick-release spring guide** , this gearbox allows you to easily adjust the power of your replica without opening the entire unit. This is a real advantage for adapting its velocity to the rules of the field or switching between CQB and outdoor use.

Reinforced bushings for a secure fit

This version incorporates **robust bushings** that ensure the gear shaft remains securely in place without compromising reliability. A classic yet sturdy choice that prevents deformation under stress. Fewer moving parts also mean less maintenance.

Ready to be mounted

Delivered fully assembled with **nozzle, cylinder, selector plate, and trigger** , this gearbox is ideal for a direct replacement. The **rear wiring with a Mini Tamiya connector** makes it compatible with most standard M4 stocks that accommodate the battery.

FAQ

Is this gearbox compatible with a standard M4 AEG?

Yes, it is compatible with the majority of electric M4/M16 replicas using a rear-wired V2 gearbox.

Does changing the spring require complete disassembly?

No, the quick-release system allows the spring to be changed without opening the gearbox shell.
