PU02004L	ARCTURUS HIGH TORQUE MOTOR LONG 25K	Vente libre	47.00 € incl. tax

Give your gearbox the little extra it needs to send the balls faster and pull the spring more efficiently.

This motor is designed for V2 gearboxes and any other design using a long type motor. With this motor, firing speed and trigger response will improve significantly, especially compared to a standard setup.

Features :

- High strength steel sprocket
- Specially designed carbon brushes
- Powerful neodymium magnet

This motor is equipped with very powerful neodymium magnets for high efficiency and performance.
The model is specially designed to work with Li-Po batteries with a voltage of 11.1 V, which guarantees the maintenance of high parameters under heavy load.

Its rotation speed is 25,000 rpm with an 11.1 V lithium-polymer battery
lithium polymer.

Suitable for: M4/M15/M16, MP5, P90.
