A reliable and efficient red dot with a complete package.

Description

- Precision machined from 6061-T6 aluminum and finished with a matte black anodize
- Wide field of vision Objective lens diameter 18 mm
- Impact-resistant tempered glass lens
- 3 MOA red dot with 8 brightness settings
- Over 30,000 hours of battery life at medium brightness setting
- Seamless flush mount turrets with precise 1 MOA per click adjustment at 100 yards
- IPX7 waterproof rating
- ACOG® Mini Low Profile Quick Release (QR) Mount with Lower 1/3 Co-witness Riser Included
- **NOTE:** We recommend tightening the M5 screw to approximately 25 inch-pounds of torque.

Accessories included

- Round head screw M5x0.8-5mm length, X2
- 3mm Allen key
- Torx T25 key
- W/E adjustment key
- CR2032 3V High Energy Lithium Battery
- Neoprene viewfinder cover
- Cleaning cloth
- User Manual

UTG® ACCU-SYNC® Dot Sights are available in a compact and subcompact size and feature a 3 MOA illuminated red dot with 8 manually adjustable brightness settings to choose from. Illumination memory allows users to easily revert to the last brightness setting used upon activation. Fully sealed, ACCU-SYNC® Dot Sights are IPX7 waterproof and constructed of matte black anodized 6061-T6 aluminum. Optimized for low power consumption and powered by a single CR2032 battery, a runtime of over 30,000 hours (at medium brightness) comes standard.

The mounting base utilizes the common mini ACOG® footprint and is configured for a 1/3 lower co-witness right out of the box. Removing the included riser lowers the height to that of a low mount, giving users two commonly used height profiles for different firearm applications. Additionally, the base features square recoil stops and our QR (quick release) mount, allowing for quick installation and removal, reliable return to zero, and compatibility with Picatinny rails that may be out of spec widths. The tool-free tension adjustment is locked in place via a gear and spring-loaded locking lever interface, allowing users to set it once and forget it.

QUICK TO PURCHASE AND PAY

- Low profile quick release (QR) bracket with tool-free tension adjustment
- Configured for a lower 1/3 co-witness and compatible with the Mini ACOG® footprint
- Seamless flush mount turrets with precise 1 MOA per click adjustment at 100 yards
- Multi-coated lens with a wide 18mm field of view

RELIABLE PERFORMANCE

- IPX7 Waterproof Operating Range
from -40°F to 158°F
- Recoil rated up to .450 Bushmaster
Squared Recoil Stops for safe, repeatable zero
- Quick release locking lever prevents accidental release

SUSTAINABLE CONSTRUCTION

- Precision machined matte black anodized 6061-T6 aluminum construction
- Reinforced main body and recessed windage and elevation turrets
- Impact-resistant tempered glass lens
