The PIE1076 camera trap is an essential tool for anyone looking to monitor wildlife or ensure the security of their property. Its high 24-megapixel resolution ensures exceptionally clear images, capturing every detail with precision.

The ability to record Full HD 1080p video allows you to document animal behavior or monitor sensitive areas with professional quality. The ultra-wide 120° detection angle combined with an 84° field of view ensures maximum coverage, reducing blind spots and increasing the chances of capturing important events. The loop recording feature is particularly useful for extended surveillance, ensuring that the most recent moments are always saved, even if the memory becomes full. Designed to withstand the harshest outdoor conditions, the PIE1076 is IP65 certified, ensuring protection against dust and water spray.

Its ease of programming and intuitive interface make it an ideal choice for both beginners and experienced users. By choosing the PIE1076, you are investing in reliable and high-performance equipment, backed by the expertise of NUM'AXES, a trusted brand in the field of monitoring and observation.
