As usual, Zion ARMS offers models with a unique design and excellent performance right out of the box.

The main innovation of these new models is the integration of the new Mosfet "Nebula II" equipped with optical sensors.

Features:

- 8-inch M-LOK compatible handguard that provides ample space to mount lights, lasers, and other M-LOK compatible accessories.
- The handguard features QD slots on both sides of the handguard for sling attachment installation.
- The reinforced and redesigned V2 Metal Gearbox features ultra-smooth 8mm bearings, an 18:1 steel gear ratio, steel teeth, a polycarbonate piston, a bearing spring guide, a rotating hop-up, and a high-speed 19,000 RPM neodymium magnet motor that delivers consistent performance.
- The Nebula 2 ETU features a new optical design. This pistol is equipped with Zion Arms' fully programmable electronic trigger, allowing it to fire in multiple modes.
- Low resistance wiring prevents potential battery damage
- The 6.03mm precision polished copper barrel improves range and accuracy.
- The all-metal gearbox features a quick-change spring accessible from the rear of the replica.
- The ergonomic textured polymer handle improves your grip and provides a comfortable feel for long games.
- Firing modes: SAFE/SEMI AUTO/FULL AUTO)
- Battery and charger not included: provide a Lipo 11.1V T-Dean

When using for the first time, it is necessary to activate the electronic trigger. To do this, connect your battery, place the selector in the "auto" position, then return it to "Safe" mode,

then press the trigger and hold it for a few seconds.

The Zion Arms R15 MK2 8" Rail AEG features a Nebula II electronic trigger unit, offering programmable firing modes for increased flexibility in the field. Its reinforced metal Version 2 gearbox, featuring 8mm bearings and a 19,000 RPM neodymium magnet motor, ensures consistent performance.

The 6.03mm precision barrel improves range and accuracy, allowing you to hit targets out to 60+ meters with 0.20g BBs. The 8-inch M-LOK handguard provides ample space for mounting accessories such as lights, lasers, and optics, while QD mounting points on both sides of the handguard allow for versatile sling attachment.

The rifle also features a rear-accessible quick-change spring system, making it easy to adjust the power to suit the demands of the terrain. The ergonomic design of the textured polymer grip ensures a comfortable grip, even during long gaming sessions. With its programmable semi-automatic, full-automatic, and burst firing modes, the Zion Arms R15 MK2 adapts to any gaming situation.

- **Total length:** approximately 700 mm
- **Weight:** about 2.7 kg
- **Magazine Capacity:** 140 BBs (Mid-Cap)
- **Materials:** CNC aluminum upper and lower receiver, polymer grip and stock
- **Battery connector:** Deans, rear wired
- **Recommended Battery:** 11.1V LiPo Battery (not included)
