Specially designed for Vorsk VMP-2 replicas.

The **VMP-2 Hop-Up Adjustment Kit** is an **essential component** for **Vorsk** brand VMP-2 replicas. This kit allows for **precise adjustment** of the Hop-Up effect, essential for optimizing the trajectory and range of your BBs. Designed for **easy installation** , it ensures **perfect compatibility** with VMP-2 models, guaranteeing optimal performance during your airsoft games.

- **Compatibility:** Specifically designed for Vorsk **VMP-2** models.
- **Materials:** Made with high quality materials for **durability** and **reliability** .
- **Installation:** Design for **quick and hassle-free assembly** .

Benefits :

- **Improved Accuracy:** Allows fine adjustment of the Hop-Up for more accurate shots.
- **Optimized Range:** Adjust the Hop-Up effect to maximize the distance of your shots.
- **Ease of Use:** Designed to be easily installed and adjusted, even in the field.

FAQ - Frequently Asked Questions

1. Is this set compatible with other models besides the VMP-2?

No, this Hop-Up Tuning Kit is specifically designed for Vorsk VMP-2 models.

2. Does installation require any special tools?

No, installation is simple and does not require any specific tools. The component mounts directly without modifications.

3. Does this set improve the power of the replica?

This set mainly allows you to adjust the **accuracy** and **range** by modifying the Hop-Up effect. It does not increase the power (FPS) of the replica.

4. Do I need to adjust the Hop-Up after installation?

Yes, it is recommended to adjust the Hop-Up after installation to optimize shooting performance based on your preferences and playing conditions.

5. How to maintain this Hop-Up adjustment set?

Regular maintenance is recommended. Gently clean the components to remove residue and ensure that the adjustment mechanism remains smooth.
