Powerful and always ready pistol for effective personal protection!

The Concorde Defender CD50 self-defense pistol is designed to provide an effective personal protection solution. Powered by CO², it propels .50 caliber rubber bullets with an energy of 13 joules, providing an immediate deterrent in the event of a threat. Its imposing, ergonomic design ensures a firm and secure grip.

- Semi-automatic operation
- 12g CO² cartridge with emergency percussion
- Non-lethal rubber ammunition

Comes with two 6-shot magazines and one bag of 12 rubber pellets. Requires one 12g CO² cartridge.

Equipped with a removable 6-round magazine, the Concorde Defender CD 50 allows for rapid reloading and semi-automatic use for increased responsiveness. The CO² rapid-pierce system, located in the grip, ensures immediate activation in an emergency. A control window allows you to see the number of remaining projectiles, thus avoiding unpleasant surprises. The ambidextrous safety, positioned at thumb level, offers intuitive use for both right- and left-handed users.

Technical information:

- The CO² cartridge is installed head down in the pistol grip
- The percussion mechanism is entirely metallic and particularly resistant.
- It is possible to fire several magazines (sold as an option) with a 12g CO² cartridge.
- The Concorde Defender pistol is not compatible with plastic-skirted steel pellets.
- Delivered without CO² sparklets, to be purchased as an option.

Sold in single packs - Overpackaging: box of 6 packs.
