GBB Hi-Capa 5.1 airsoft pistol ready to use: Tokyo Marui compatibility, RMR included and competition ergonomics.

HERACLES **Hi-Capa 5.1 Lancer Tactical GBB** replica, designed for demanding players wishing to combine performance, customization and realistic shooting sensations.

- **Operation:** Gas Blowback (GBB)
- **Compatibility:** 100% compatible with Tokyo Marui Hi-Capa parts (wide range of upgrades available)
- **Slide:** Lightweight, CNC-machined aluminum cylinder head with perforations for smooth cycling
- **Frame:** Aggressive textured handle offering excellent grip (even with gloves)
- **Safety:** Ambidextrous lever with functional beaver tail
- **Rail:** Lower Picatinny rail for lamp/laser
- **Blowback:** Realistic with smooth bolt action
- **Magwell:** integrated, facilitates rapid reloading
- **Relaxation:** skeletonized competition type
- **Hop-up:** adjustable
- **Magazine:** gas, capacity 28 BBs
- **Length:** 240 mm
- **Weight:** 1030 g
- **Included:** rigid case, RMR (CR2032 battery supplied)

The **HERACLES Hi-Capa 5.1** relies on a proven technical base: CNC aluminum slide with holes to reduce moving mass and improve responsiveness, textured frame for a secure grip and integrated

magwell for fast reloads in game situations.

Supplied with an **RMR** plate and a CR2032 battery, it is ready to accept a micro-red dot sight (optics not included unless otherwise specified). 100% compatibility with **Tokyo Marui Hi-Capa** parts facilitates access to a wide range of external and internal upgrades.

Ergonomics & shooting feel

The aggressive grip ensures excellent handling in all conditions. The skeletonized trigger provides a crisp break, while the blowback delivers a realistic recoil sensation, appreciated for dynamic shooting and CQB.

Interview & recommendations

For lasting performance: use **Green Gas** or a gas recommended for GBBs, clean the barrel regularly, and moderately lubricate the seals and nozzle. Check the condition of wear parts after periods of heavy use.

FAQ

What gas should I use with the HERACLES Hi-Capa 5.1?
Use **Green Gas** or a gas specifically formulated for GBB; follow the manufacturer's recommendations to preserve the seals and optimize longevity.

Is the replica compatible with Tokyo Marui Hi-Capa parts?
Yes - compatibility is advertised as **100%** , allowing access to a wide range of internal and external upgrades.

Is the RMR provided and functional?
The replica is supplied with the RMR plate and a CR2032 battery; check the attachment and alignment during commissioning (RMR optics not supplied unless otherwise specified).

What is the magazine capacity and the length of the pistol?
Gas magazine: **28 BBs** . Length: **240 mm** .

How do I maintain the gun to preserve its performance?
Clean the barrel regularly, moderately lubricate the seals and nozzle, periodically check wear parts (nozzle, seals, valves) and store the replica in a dry place.
