The **Stryk Hi-Capa 4.3 Purple/Gold** stands out for its perfect balance between aesthetics and efficiency. Its skeletonized slide reduces moving weight for faster cycling, while its **built-in RMR** improves target acquisition speed.

Designed based on the **Tokyo Marui** standard, this model offers extensive compatibility with most internal and external parts on the market - a major advantage for upgrade and custom enthusiasts.

Ergonomics and shooting feel

The **textured frame** ensures a firm grip even in wet conditions. The **flared magwell** and **skeletonized trigger** promote quick handling, while the **crisp blowback** provides a realistic and dynamic recoil sensation.

Equipment and accessories

Supplied **with its RMR** (CR2032 battery included) and a **hard case** , the Stryk Hi-Capa 4.3 is ready to use right out of the box. The **Picatinny rail** allows for the addition of tactical accessories (flashlight, laser), and the **11mm CCW thread** accepts a suppressor or tracer via an adapter.

Compatibility and maintenance

Compatible with **Tokyo Marui Hi-Capa magazines** and most standard spare parts, this model benefits from excellent technical support and numerous upgrade possibilities. Regular cleaning of the nozzle and barrel ensures consistent performance.
