The **Hi-Capa 5.1 Black/Red Golden Eagle** revisits a classic airsoft gun with a modern twist. Its open slide and spiral-anodized red barrel immediately catch the eye, while also contributing to a smoother cycle and improved blowback responsiveness.

Construction and finishing

Constructed from **metal and polymer** , the Hi-Capa 5.1 boasts a robust finish and excellent ergonomics. The textured hexagonal grip ensures a firm hold, while the skeletonized trigger and lightweight slide enhance its modern style.

Performance and reliability

Thanks to its **precision 6.02 mm inner barrel** and **adjustable hop-up** , this replica offers a stable and accurate trajectory. The gas blowback provides a realistic feel with every shot. Its lower rail allows you to add a tactical light or laser for your CQB sessions.

Compatibility and accessories

Compatible with most **Tokyo Marui Hi-Capa** parts, this replica is easily customizable: magazines, inner barrels, valves, and springs. The 11mm CW thread allows for the addition of a compensator or a suppressor adapter.

Transport and maintenance

Delivered in a **rigid case with egg-crate foam** , this GBB is ready to use after adding gas and BBs. Remember to regularly lubricate the seals and slide, clean the inner barrel, and store the replica without gas to maintain its airtight seal.

FAQ - Questions/Answers

Is the red cannon purely aesthetic?
No, the spiral anodized red barrel lightens the replica while improving the stability of the Blowback cycle.

Is the barrel threaded?
Yes, 11 mm CW thread for adapter or compensator.

Is the Hop-Up adjustable?
Yes, easily accessible after dismantling the breechblock to optimize range and accuracy.

Is the replica compatible with Tokyo Marui Hi-Capa magazines?
Yes, fully compatible with TM magazines and derivatives (WE, KJW, Army Armament...).
