GBB Hi-Capa 5.1 Black/Bronze: race design, tactical rail and Tokyo Marui compatibility.

Gas Blowback Hi-Capa 5.1 replica designed for players seeking aesthetics, ergonomics and customization possibilities.

- **Operation** : Gas Blowback (GBB).
- **Internal barrel** : 94.5 mm Ø 6.02 mm.
- **Construction** : metal and polymer for robustness and lightness.
- **Modes** : **Safe** / **Semi** .
- **Hop-Up** : adjustable to optimize trajectory.
- **Capacity** : 30 BB magazine.
- **External barrel** : 11 mm CW thread (compatible with compensators/adapters).
- **Ergonomics** : non-slip stippled grip, openwork cylinder head.
- **Accessories** : integrated rail under the frame for lamp/laser, green fiber optic handlebar.
- **Included** : ABS case with foam and accessories (speedloader depending on the set).
- **Compatibility** : many Tokyo Marui Hi-Capa parts are compatible.

The Golden Eagle Hi-Capa 5.1 Black/Bronze combines a bold aesthetic (skeletonized slide and bronze keys) with a Hi-Capa technical base designed for field use and customization.

Delivered in a case, this GBB replica is suitable for CQB as well as outdoor sessions and integrates easily into the Hi-Capa ecosystem after adding gas and BBs.

Construction and finishing

Constructed from **metal** and **polymer** , the replica features an open-work slide that reduces moving mass and a stippled grip for excellent handling. The **outer barrel** is threaded 11mm CW for

accessory mounting, and the **fiber optic** front sight facilitates target acquisition in various conditions.

Performance and settings

Equipped with a **94.5 mm (6.02 mm diameter) inner barrel** and an **adjustable hop-up** , this replica is designed for stable trajectory and accuracy suited to short and medium-range engagements. The **gas blowback** system provides a realistic recoil sensation and a rate of fire appropriate for dynamic gameplay.

Ergonomics and modularity

The integrated Picatinny rail under the frame allows for the addition of a light or laser for CQB. The flared magazine well and oversized magazine release facilitate rapid reloads. Compatibility with **Tokyo Marui Hi-Capa** parts allows for internal and external upgrades (barrels, springs, valves, sights).

Interview and recommendations

Regularly lubricate the bolt and seals, periodically check the condition of the valves, and use a lubricating gas appropriate for the ambient temperature. Clean the inner barrel after intensive use and store the replica depressurized to preserve the seals.

FAQ - Questions/Answers

Is the replica delivered ready to use?

The replica is supplied in a case with a 30 BB magazine; you will need to provide GBB compatible gas and BBs for operation.

Is the barrel threaded and compatible with accessories?

Yes, the outer barrel is threaded 11mm CW and can receive compensator or silencer via adapter depending on the model chosen.

Which Hi-Capa parts are compatible?

The replica accepts many Tokyo Marui Hi-Capa parts (inner barrels, springs, valves, magazines); check the part number before each upgrade.

What maintenance is required for this Golden Eagle GBB?

Lubricate the cylinder head and seals, check the valve seals, clean the inner barrel and adjust the gas to the temperature to guarantee performance and longevity.
