GBB Hi-Capa race: ported slide, threaded gold barrel and Tokyo Marui compatibility.

Gas Blowback Hi-Capa 5.1 replica combining striking aesthetics and a compatible technical base for customization.

- **Operation** : Gas Blowback (GBB).
- **Internal barrel** : 113 mm Ø 6.02 mm.
- **Construction** : metal and polymer for robustness and controlled weight.
- **Modes** : **Safe** / **Semi** .
- **Hop-Up** : adjustable to adjust the trajectory.
- **Magazine capacity** : 30 BBs.
- **External barrel** : 11 mm threaded, gold finish.
- **Ergonomics** : textured grip, openwork cylinder head, fiber optic handlebar.
- **Included** : carrying case and accessories (speedloader included).
- **Compatibility** : many Tokyo Marui Hi-Capa parts are compatible.

The Golden Eagle Hi-Capa 5.1 Black/Gold is distinguished by an openwork slide and a threaded gold outer barrel, offering a strong visual appearance while maintaining a solid Hi-Capa technical base.

Designed for CQB games as well as outdoor sessions, this replica comes in a case and is ready for upgrade after adding gas and BBs.

Construction and finishing

The combination of metal slide components and a polymer frame ensures a good balance between feel and lightness. The ported slide reduces moving mass and enhances the visual identity; the gold-plated outer barrel is threaded 11mm to accommodate a compensator or adapter as needed.

Performance and settings

With a **113mm Ø 6.02mm inner barrel** and **adjustable hop-up** , this replica aims for stable trajectory and increased accuracy at medium range. The **gas blowback** system delivers a realistic recoil, ideal for dynamic gameplay.

Ergonomics and accessories

The textured grip ensures a firm hold, the fiber optic front sight facilitates target acquisition, and the 30-round magazine minimizes interruptions. The rail under the frame allows for the addition of a light or laser, and the included case protects the replica during transport.

Interview and recommendations

Regularly lubricate the breech and seals, check the valve seals, and use a lubricating gas appropriate for the ambient temperature. Clean the inner barrel and use high-quality BBs to maintain accuracy and components.

FAQ - Questions/Answers

Is the replica delivered ready to use?

The replica is supplied in a case with a 30 BB magazine and a speedloader; you will need to provide GBB compatible gas and BBs for operation.

Is the barrel threaded and compatible with accessories?

Yes, the outer barrel is threaded 11 mm and can receive compensator or silencer via adapter depending on the model chosen.

Which Hi-Capa parts are compatible?

Many Tokyo Marui Hi-Capa parts are compatible (inner barrels, springs, valves, magazines); check the part number before each upgrade.

What maintenance is required for a Golden Eagle GBB?

Lubricate the cylinder head and seals, check the valve seals, clean the inner barrel and adjust the gas to the temperature to ensure reliability and longevity.
