- **Bipod:** Foldable and removable
- **Length:** 121 cm
- **Weight:** 3.2 kg

A ready-to-shoot pack

This **air rifle** comes with a **Gamo 3-9x40 WR scope** and a **folding bipod** , allowing you to immediately enjoy a complete setup. This configuration promotes excellent stability during **target shooting** and **plinking** sessions, while also offering considerable comfort when using a rest.

IGT technology for more consistent shooting

The **IGT (Inert Gas Technology)** system replaces the traditional spring with a gas spring. This technology provides a smoother firing cycle, reduces vibrations, and improves performance consistency. The user experience is immediately noticeable, with a softer trigger pull and improved

accuracy with each shot.

Canon Whisper Fusion: discretion and precision

The rifled barrel benefits from **Whisper Fusion** technology, a noise reduction system developed by **GAMO** . This design significantly reduces noise while maintaining excellent accuracy. The jacketed barrel also offers additional protection against impacts and external damage.

Ergonomics designed for long sessions

The tactical synthetic stock provides excellent resistance to weathering and repeated handling. The adjustable **CAT** trigger allows the shooter to customize the trigger pull, while the **SWA** recoil pad effectively absorbs vibrations for enhanced comfort.

Picatinny rail and customization

Thanks to its **Picatinny** rail, this rifle can accommodate various compatible accessories depending on the user's needs. Its tactical aesthetics combined with its Jungle finish give it a modern look while maintaining excellent handling.

Power suitable for recreational shooting

Developing an energy of **19.9 joules** , this rifle is perfectly suited for precision shooting at medium range. Its **4.5 mm** caliber, the most common, makes it easy to find compatible pellets and enjoy a flat trajectory for recreational shooting sessions.

FAQ

Does this rifle come with a scope?

Yes. The pack includes a Gamo 3-9x40 WR scope with its mounting rings as well as a folding bipod for immediate use.

What are the advantages of the IGT system?

The IGT gas spring reduces vibration, improves shot consistency, offers smoother cocking and requires less maintenance than a traditional spring mechanism.

Is this rifle available for purchase without a license?

Yes. With an energy of 19.9 joules, it is classified in category D in France and can be acquired by any adult upon presentation of an identity document.
