PG1138	GBB Sand Viper Golden Eagle Replica	Vente libre	25	22	920	Gas	151.00 € incl. tax

John Wick inspired GBB Hi-Capa: sand/black finish, Pit Viper compensator and RMR base.

Gas Blowback Hi-Capa replica combining cinematic aesthetics and a Hi-Capa compatible technical base.

- **Operation** : Gas Blowback (GBB).
- **Internal barrel** : 112 mm Ø 6.02 mm.
- **Construction** : metal cylinder head / polymer body for robustness and controlled weight.
- **Mode** : Safe / **Semi** .
- **Hop-Up** : adjustable to optimize accuracy.
- **Capacity** : 30 BB magazine; speedloader included.
- **Optics** : RMR base with 19 mm center distance.
- **Accessories** : lower tactical rail, flared magazine well, large magazine release.
- **Delivery** : ABS case with egg-crate foam.

The Sand Viper captures the spirit of the Pit Viper with a sleek sand/black finish and details designed for modern play.

Designed for CQB as well as outdoor sessions, this replica offers an easily customizable Hi-Capa base and is ready to use after adding gas and BBs.

Construction and finishing

The replica combines a ported **metal slide** and a stippled **polymer body** for a good balance of weight and robustness. The **outer barrel** (bronze on the visual version) is threaded, and the Pit Viper-style compensator enhances the aesthetics while remaining compatible with adapters and accessories. The **RMR base** (19mm hole spacing) allows for the installation of a micro red dot sight

for a quick transition between mechanical and electronic sights.

Performance and precision

Equipped with a **112mm Ø 6.02mm inner barrel** and an **adjustable hop-up** , the Sand Viper is designed for stable trajectory and consistent accuracy at medium range. The **Gas Blowback (GBB)** system delivers realistic recoil and a rate of fire suitable for CQB games and fast-paced engagements.

Ergonomics and field use

The textured/stipped grip ensures a firm hold, while the flared magazine well and oversized magazine release facilitate rapid reloads. The lower Picatinny rail accepts lights and lasers for tactical scenarios. The ABS case with egg-crate foam protects the replica and its accessories during transport.

Interview and recommendations

Regularly lubricate the breech and seals, check the valve seals, and use a lubricating gas appropriate for the ambient temperature. Clean the inner barrel after intensive use and prioritize high-quality BBs to maintain accuracy and mechanical integrity.

Inspired by the John Wick universe

While not a 100% faithful reproduction, the **Golden Eagle Sand Viper GBB** pistol is inspired by the **TTI Pit Viper** seen in the fourth film of the **John Wick cinematic franchise** , starring Keanu Reeves.

FAQ - Questions/Answers

Is the replica delivered ready to use?

The replica comes in a case with a 30 BB magazine and a speedloader; you will need to provide GBB compatible gas and BBs for setup.

What type of optics can I mount on the RMR base?

The RMR base is designed for micro red dots with a 19mm center distance; check the red dot reference for exact compatibility.

Is the barrel threaded and compatible with accessories?

Yes, the outer barrel is threaded (standard for mounting compensators or silencers via adapter depending on the model).

Which Hi-Capa parts are compatible?

The replica accepts many Tokyo Marui Hi-Capa parts (inner barrels, springs, valves, magazines); check the part numbers before each upgrade.
